Dear Board Members:

Response to January 5, 2012 letter on Replenishment workgroup materials

Thank you for your letter dated January 5, 2012, "MWD Letters on Replenishment dated December 21, 2011." Your letter contained a list of documents and data that have been distributed during the ongoing Replenishment Workgroup process between The Metropolitan Water District of Southern California (Metropolitan) staff, the member agencies, and groundwater basin managers. Your letter also requested confirmation that this list was complete and to be provided with any missing documentation. Please see the attached reference letter with Metropolitan's response to your documentation request. Metropolitan staff reviewed the list and provided Mr. Ken Weinberg of the San Diego County Water Authority staff with workgroup meeting materials that were not listed in your letter. We also made reference to two additional documents that had been provided to the Water Authority in a previous letter to Mr. Ken Weinberg dated December 21, 2011.

I hope this addresses your request. We appreciate the San Diego County Water Authority's input and attention to the Replenishment Workgroup process. Please let me know if you have any questions.

Very truly yours,
